Holden, home economics specialist for the agricultural extension service of the cultural college. The sugar may be added when the fruits are served and when sugar is more plentiful. The best flavor is obtained by making a syrup of the fruit juice and sugar, adding the fruit to the hot syrup and allowing it to cool. This gives a satisfactory canned fruit which may save a waste of fruit during the summer, as well as preparing for

the winter months. When a few special points are ob-served, the canning may be done successfully without sugar. Only ripe, fresh, guest at Lake Side farms, West Haven, be selected. It is also important to
